

**Remarks**

**Substitute Specification**

Responsive to the Notice to File Corrected Application Papers (Filing Date Granted) mailed in the above-identified Patent application on June 22, 2004, Applicant herewith transmits a substitute specification in compliance with 37 CFR § 1.52, 1.121 (b)(3) and 1.125. As directed, the line spacing of the substitute specification is 1-1/2 spaces.

In addition, paragraph numbers have been added to identify the individual paragraphs of the specification and the titles within the specification have been amended to conform to conventional U.S. practice. Specifically, preceding paragraph 0001 "Technological Field" has been amended to read Field of the Invention; preceding paragraph 0002 "Background Technology" has been amended to read Background; preceding paragraph 0005 "Contents of the Invention" has been amended to read Summary of the Invention; preceding paragraph 0012 Brief Description of the Drawings has been added; and preceding paragraph 0016 "Specific Method of Implementation" has been amended to read Detailed Description of the Invention.

Also as directed, an abstract not exceeding 150 words a length and commencing on a separate sheet in compliance with 37 CFR 1.72 (b) has been added. No new matter has been added.

A marked-up copy of the substitute specification, in which additions are underlined and deletions are shown struck-through is attached hereto.

**Amendments to the Drawings**

Transmitted herewith are the required replacement drawings. The drawings have been amended to include the text "Fig." immediately before the drawing number on each of sheets 1-4 respectively. No new matter has been added. The replacement drawings are believed to be in compliance with 37 CFR § 1.84 and 1.121.
